SHAIK MALEEHA AIMAN

AI/ML ENGINEER

aimanmaleeha17@gmail.com | linkedin.com/in/maleeha-aiman-shaik-b77268386 | github.com/maleehaaiman

PROFESSIONAL SUMMARY

AI/ML Engineer specializing in Artificial Intelligence, Machine Learning, and Deep Learning, with a strong foundation in software development and the Python scientific ecosystem. Proficient in designing predictive models, neural architectures, and computer vision pipelines using TensorFlow, PyTorch, scikit-learn, and OpenCV. Proven capability in deploying machine learning models into responsive mobile applications and software systems. Highly agile problem-solver demonstrated across 10+ competitive hackathons and verified hands-on technical workshops.

TECHNICAL SKILLS

Programming & Libraries:	Python, NumPy, Pandas, scikit-learn, TensorFlow, PyTorch, OpenCV, Matplotlib
AI & Core Disciplines:	Machine Learning, Deep Learning, Computer Vision, Generative AI Tools, Robotics
Databases & Persistence:	MySQL, SQLite, Structured Query Design, Data Modeling
Developer & Cloud Tools:	Git, GitHub, Docker, Command Line, VS Code
Design & Prototyping:	Figma, UI/UX Prototyping, Gamma, Editing
Productivity:	Microsoft Excel, Google Sheets, Technical Documentation

COMPETITIVE EXPERIENCE & HACKATHONS

10+ Competitive Hackathons Attended — Competitive Participant

- Engineered end-to-end AI/ML software prototypes under intense competitive timeframes.
- Formulated algorithmic solutions, trained classification & predictive models, and built functional user interfaces.
- Collaborated within high-speed developer teams to pitch, demo, and deploy machine learning solutions.
- Gained practical expertise in fast-paced code iteration, problem decomposition, and model evaluation under pressure.

TECHNICAL WORKSHOPS & CERTIFICATIONS

Codegnan Technical Workshop Certificate — Codegnan

- Hands-on practical training in Python, ML algorithms and application integration.

SRM University Technical Workshop Certificate — SRM University

- Immersive technical workshop covering emerging computing technologies & modern AI.

5+ Technical Workshops Completed — Verified Credentials

- Intensive practical certifications across Deep Learning, Computer Vision, and Software Dev.

KEY FOCUS AREAS & DOMAIN INTERESTS

- AI-Powered Mobile Applications: Integrating lightweight, performant ML inference models directly into mobile devices.
- Computer Vision & Neural Architectures: Feature extraction, image classification, and object detection using OpenCV and PyTorch.
- Human-Centered AI & UI/UX: Combining algorithmic precision with clean Figma prototypes for intuitive user interactions.
